### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Objections***

Claim 10 is objected to because of the following informalities: After “mechanism”, the semicolon should be deleted. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

A person shall be entitled to a patent unless –

Claims 12 and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by E.J. Slattery (2686626).

Regarding claim 12, the Slattery reference discloses an actuating apparatus for a rapid coupling for transferring gaseous and/or liquid fluids, comprising a tubular housing (see Figure 2) and a slide (16) which is mounted in a manner that enables it to be displaced relative to the housing and which is coupled with a lever mechanism wherein the lever mechanism comprises at least one pivoting lever (34) which is laterally mounted on the housing, wherein the pivoting lever is connected with a hand lever (25) via a lever (36).

Regarding claim 15, wherein a pin (26) is provided as a joint, on which a second lever (i.e., dog (34)) of the lever mechanism is also mounted.

Claims 12 and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Koppenaal (EP 0039977).

Regarding claim 12, the Koppenaal reference discloses an actuating apparatus for a rapid coupling for transferring gaseous and/or liquid fluids (see Figures), comprising a tubular housing (122) and a slide (105) which is mounted in a manner that enables it to be displaced relative to the housing and which is coupled with a lever mechanism wherein the lever mechanism comprises at least one pivoting lever (128) which is laterally mounted on the housing, wherein the pivoting lever is connected with a hand lever (126) via a lever (131).

Regarding claim 15, wherein a pin (135) is provided as a joint, on which a second lever (134) of the lever mechanism is also mounted.

### ***Allowable Subject Matter***

Claims 1-3, 5-9, 11, 13 and 14 are allowed.

Claim 10 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. **New Claim 12 did not include all the limitations of claim 8.**

Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
